Mail: info@zentrader.de

This license statement limited warranty constitutes a legal agreement ("License Agreement") between you ("Licensee", either as an individual or a single entity) and Dipl.-Ing. Volker Butzlaff ("Licensor").

BY INSTALLING, COPYING, OR OTHERWISE USING THE SOFTWARE, YOU AGREE TO BE BOUND BY ALL OF THE TERMS AND CONDITIONS OF THE LICENSE AGREEMENT.

Upon your acceptance of the terms and conditions of the License Agreement, Licensor grants you the right to use the Software in the manner provided below. If you do not accept the terms and conditions of the License Agreement, you must promptly delete each and any copy of the Software from all your computers.

The license is a so-called "life time license", which includes free possible future updates! The use of the license depend on the type of the bought license model: single user license, multi user license or source code license. The Licensor reserves the right to license the same Software to other individuals or entities under a different license agreement.

The Software remains the exclusive property of the Licensor. Any Licensee who fully complies with the terms in this license agreement may use it according to the terms of this license agreement. You must not give copies of the Software to other persons or entities. You must not transfer the Software to another person or entity. You must also take reasonable steps to prevent any third party from copying the software from one of your computers or removable devices without your permission. You must not attempt to reverse compile, modify, translate or disassemble the Software in whole or in part.

The Licensor reserves the right to revoke your license if you violate any or all of the terms of this license agreement.

Exemption from Liability:

The Software is provided "as is". The software product Zen Trading System v2.0e generates trading signals concerning the trading of german DAX Index instruments based on the implemented mechanical trading system and on price data input in control of the user. Results obtained in the past offer however no security for the future success of the system. Therefore no guarantee for a successful trading in the future can be taken using this software product. The user is fully responsible for his trading actions and his trading risk.
